

## GLS Profile

### Quality delivered by GLS

**General Logistics Systems B.V., Amsterdam (GLS)**, is a Pan-European company providing **reliable, high-quality parcel and express services as well as value-added logistics solutions**. The company offers its services through wholly owned and partner companies in 36 European states, and is globally connected via contractual agreements.

The GLS system consists of 32 central transshipment points, 655 depots and 12,000 employees. Some 17,800 vehicles are on route moving 311 million parcels annually for 220,000 customers throughout Europe. In the financial year 2006/07, GLS achieved revenues of 1.6 billion Euros.

**GLS stands for “European Leader in Quality“**. This is something that everyone working for GLS strives to achieve every day.
